

AMSLER GRID

PATIENT INSTRUCTIONS:

1. Hold grid at reading distance (12-14 inches away). If you use reading glasses or bifocals, wear them for this test.
2. Cover one eye and look at the center dot. Always test one eye at a time.
3. Observe for any distorted or wavy lines while staring at the center black dot.
4. Repeat the test with the other eye.
5. If you notice any distortion or wavy lines, please call the office.
